Our weekly programme

The tennis programme consists of 20 hours of tennis incorporating morning coaching sessions, and afternoon matchplay sessions and an end of week social champagne tournament.

The programme has been devised with the main emphasis on improving your doubles; our aim is for you to go home a better doubles player with an improved understanding of your positioning, movement and tactical play. As well as improving your doubles play we will also be giving you personal technical tips which you can work on to further help improve your game.

For those that want to play singles we arrange box leagues that can be played outside of the program times.

Our programme is as flexible as it needs to be and we can tailor your holiday to your exact needs. You can play as much or as little tennis as you want. You can rest assured that all abilities will be catered for, from absolute beginners to County and National standard players. Private lessons with one of our professional coaches can be arranged in resort for an additional cost.
